

FULL STACK DEVELOPER (M/F)

HELP US TO BUILD AN ECOSYSTEM FOR CRYPTO AND BLOCKCHAIN PROJECTS

(+40 HOURS - HEART OF BERLIN - FULL TIME)

Paranoid Internet is an ecosystem builder and agency focused on advancing the entire blockchain industry. For us, ecosystem building means expanding through service, education, community, and investment. We're a fun team of 20+ international people helping blockchain companies to launch their products and services.

We're looking for a Full Stack developer who will take a key role on our team, a highly skilled computer programmer who is comfortable with both front and back end programming. Responsible for developing and designing front end web architecture, ensuring the responsiveness of applications and working alongside graphic designers for web design features, among other duties.

About you

- Proficiency in HTML5, CSS, Javascript, jQuery, PHP
- Proficiency in PHP Laravel, Bootstrap
- Proficiency in REST API
- Libraries/Frameworks: React, Redux, Relay
- Proficiency in code version tools, such as Git
- MySQL
- Amazon Web Services (AWS) - Cloud Computing Services, Cloud services
- Strong attention to detail, analytical and problem solving skill
- Experienced working in teams
- Maintain code integrity and organization.
- Experience working with graphic designers and converting designs to visual elements.
- Pixel perfect design sensibilities
- Confident with being hands-on from initial wireframes, through prototyping, into building the final product
- Responsive & adaptive design wisdom
- You heard about Blockchain and Bitcoin before and have the interest to learn more about it
- You don't wait for instructions but always look ahead and see what's coming next
- Strong interpersonal skills, empathic and a people person
- Positive with enthusiastic energy, creative and output-driven
- Attention to detail and ability to work efficiently under pressure to meet tight deadlines, all while keeping a smile!
- Exceptionally strong ownership and "can-do" attitude, requiring little guidance
- Excellent writing and communication skills in English and German

Responsibilities

- Developing front end website architecture.
- Designing user interactions on web pages.
- Developing back end website applications.
- Creating servers and databases for functionality.
- Ensuring responsiveness of applications.
- Working alongside graphic designers for web design features.
- Seeing through a project from conception to finished product.
- Designing and developing APIs.
- Meeting both technical and consumer needs.
- Staying abreast of developments in web applications and programming languages.

You will get

- Lot's of space to grow and shape our products
- A small, friendly and diverse international team
- Responsibility from day one and a steep learning curve
- Join conferences, industry events and personal coaching sessions
- Free drinks & fruits
- Office in Berlin Mitte
